Friday 1st September 2023

Dear Parents/Carers,

You may be aware from media coverage that the government has asked some schools to close or partially close due to the presence of reinforced autoclaved aerated concrete (RAAC) in their school buildings. We understand that this is an unsettling news story and may have caused concern. This material was used in buildings between the 1950s and 1990.

Last term, the Department of Education (DFE) asked schools to conduct visual inspections to see if they could view evidence of RAAC in their buildings. Our schools completed this and there was no confirmation of RAAC being present.

We will update you if we receive further information from the DFE.

We look forward to welcoming your child back to school for the new term.

If you have any further questions, please contact your school.

Yours sincerely,

Simon Marriott

(CEO Kaleidoscope MAT)
